

Dear Friends,

Design on a Dime 2021 was an extraordinary success! For the last 17 years this annual, cherished event has been a homecoming for the design community and a rallying cry for an AIDS-free nation. We reimagined it this year in response to the pandemic and returned to our roots in Housing Works beloved Thrift Shops. It was also one of the first in-person events of the year, prior to announcements about the re-opening of New York. The amazing talent and tireless efforts of our designers, coupled with the unwavering support of our patrons, sponsors, and the larger design community from New York to Los Angeles made this year one of our best yet!

Now the largest annual design benefit in the country, Design on a Dime has **raised more than \$20 million over the years**, providing thousands of New Yorkers access to stable housing, regular healthcare, and a community that services and understands their needs. When COVID-19 hit New York, Housing Works quickly stepped onto the frontlines and opened isolation shelters for the homeless, offered free and accessible community testing, distributed thousands of PPE kits and meals, and administered vaccinations. Housing Works was not just a safety net provider but an essential part of New York's response to the pandemic and

a critical player in the city's resurgence. This year's event helped mark Housing Works 30th Anniversary, and we are so proud that Design on a Dime is part of its story. Over the years, our collective efforts have helped advance Housing Works' mission to end HIV/AIDS and homelessness and amplify its advocacy for those most marginalized in our community.

A very special thanks to the dedicated leadership this year, helmed by the talented and amazing Honorary Chair **Patricia Arquette** and Event Co-Chairs **Jamie Drake**, **Joy Moyler**, and **Young Huh**. We are grateful also to our partners and longtime champions, our event sponsors, and the hundreds of donating brands that help make the event possible. And to all of our supporters and shoppers, many thanks – we could not have done this without you.

We can't wait to see you next year at Design on a Dime 2022!

Warmly,

James "Ford" Huniford
